

DOMINATOR[®]

Industrial Roller Doors

Protection Starts Here.

Tough Industrial doors, providing protection, 24/7.

Choosing a Dominator Industrial door makes sense

We're New Zealand's most recognised garage door brand, which is not surprising really, as we pride ourselves on always being local, with over 30 dedicated Dominator dealers across New Zealand.

Backed by the highest levels of customer service and support, all of our dealers undergo extensive training in all aspects of our products, including installation and maintenance procedures. In addition, we provide on-going support around product knowledge, industry standards and customer service.

When it comes to protecting your assets and business, you can't buy better than a Dominator industrial door. Hardwearing, durable and tough, with built-in peace of mind.

Why you should buy a Dominator Industrial door

Weather resistant – The weatherstrip, with its multi-fin design and deep cushioning, creates an effective seal against wind and leaves. On slightly uneven floors, it reduces the gap for a better fit.

True alignment – The galvanised steel tension strip is an integral component providing vertical rigidity ensuring that the door is not stretched.

Precise movement – The side edge strip with Teflon-coated surface ensures the door opens quietly in an even manner and reduces friction allowing the door to operate smoothly in the guides.

Fast and easy operation – The factory aligned reduction gearing system ensures fast operation with minimum effort when opening or closing the doors over 3.3m high. Optional extra on other heights.

Perfect balance – A galvanised steel hub with a nylon bearing ensures long life for high repetition use. Computerised spring selection ensures consistent balance and reliable ease of operation.

Smooth, quiet operation – The nylofelt running strips eliminate metal-to-metal contact to provide smooth, quiet, friction-free operation.

Series A Mini-Warehouse Roller Door

Planning a Mini-Warehouse complex or addition? Talk to Dominator.

We've been involved in many storage complex projects providing dependable door installations with a proven product that offers durability and security.

A locking system specifically designed for use in Mini-Warehouse situations accommodates two padlocks, one for the renting customer and one for the storage proprietor should payments default.

Features include:

- Smooth, quiet and durable
- Easy to operate with minimal clearances required
- Manufactured to a durable time tested design
- Available in 18 colours plus Zincalume®
- Optional colours available for larger facilities (Additional cost may apply)

Note: Colours shown may not be available as standard.

Dominator® Industrial Series C

Safe, secure and durable

With strong clean lines, our weather resistant Roller Doors are convenient and low maintenance. The thick steel gauge ensures your assets are protected and unwanted intruders are kept out.

Fast and Easy Operation – The factory aligned reduction gearing system ensures fast operation with minimum effort when opening or closing the doors over 3.3m high. Optional extra on other heights.

Features include:

- Available in 20 colours plus Zinalume®
- Smooth, quiet and easy to operate
- Manufactured to a durable time tested design
- Operated with a push button via our Heavy Duty GDO-10 opener (optional)

Dominator® Semi-Industrial Series B

Lightweight easy operation

Economical rolling door suitable for use in a variety of applications such as counters, kiosks & bars, emergency services, factories and warehouses.

Dominator Series B semi-industrial roller doors are available in a range of widths, heights and colours to suit a wide variety of situations from domestic to commercial.

Features include:

- Available in 17 colours plus Zincalume®
- Smooth, quiet and easy to operate
- Springs safely concealed
- Manufactured to a durable time tested design
- Manual or remote control operation available

Dominator Toro GDO-10

The Dominator Toro offers a sophisticated commercial rolling door opener with superior pulling power. It comes as standard with built-in Battery Backup and a Wall Mounted LCD Control Panel that can programme a variety of operating modes for your security and safety.

Features

- Logic controls with LCD screen
- Heavy duty 1000N DC motor
- Soft Start/Stop operation to reduce door stress
- Manages up to 511 TrioCode™ 128 transmitters
- Built in Battery Backup

The Toro opener is compatible with all Dominator industrial roller doors

Two
TrioCode™
Remotes Included

The optional lockable control box mounts the LCD console inside a sturdy enclosure. It features separate open, close and emergency stop buttons on the door control.

Accessories

Bird proofing

If you want to deter birds from entering and nesting in your building while the roller door is closed, the addition of a bird proofing brush strip along the lintel is the perfect solution.

Windlocking – Series C

A heavy duty guide & clip design that ensures the door is held captive in the door track when exposed to high wind situations, to reduce the risk of blow-in blow-out wind forces, as well as forced entry.

Windlocking – Series A

A unique guide & clip design that ensures the door is held captive in the door track when exposed to high wind situations, to reduce the risk of blow-in blow-out wind forces, as well as forced entry. Domestic only.

Wireless safety beams

Protect property and staff. As soon as the invisible photo-electric beam is broken the door will stop, or reverse to avert damage. Also enables Auto-Close functions on your opener with no wires to run.

Combo access device

This device allows you to open the door manually during a power failure using a key to remove the barrel with a cord attached to the disengagement handle. It also allows for motorised key operation.

Lockable control box

The optional lockable control box mounts the LCD console inside a sturdy enclosure. It features separate open, close and emergency stop buttons on the door control.

Entry key pad

Allows entry to the premises without a remote transmitter. There's no need to worry about lost keys or transmitters as employees can enter the premises with their PIN.

Extra remotes

Lost your remote or need additional remotes for your staff? Talk to your local Dominator dealer about ordering more.

Security system compliant

Dominator openers can be wired into alarm systems. This allows your remote to arm and disarm the alarm.

The colours in this gallery are intended as a guide only. Image editing procedures used in this brochure may also result in the colour of products not bring a true representation of those actually available. If colour selection is critical please request a steel colour sample from your local Dominator dealer. Please make contact with your Dominator dealer for advice and samples. Dominator reserves the right to change/delete colours without notice.

^Colorbond range

Tough and stylish steel

When it comes to manufacturing our Industrial doors, we only use the best materials. All of our pre-painted steel is made for New Zealand conditions. Dominator Industrial doors are made from COLORSTEEL® which provides excellent colour performance and scratch resistance.

Warranty

All Dominator doors come with an extensive warranty which covers the door and all parts across domestic, industrial and commercial applications (excludes salt corrosion). As with all types of industrial doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually.

DOMINATOR®

Each Dominator Industrial door is custom-built to fit your commercial property perfectly. For more details on this product or our other ranges call 0800 366 462 or visit www.dominator.co.nz

a) Industrial Rolling doors, in normal commercial use, are covered by a 12 month warranty for steel door curtain, surface coating, locking mechanism and all other components and all associated labour; conditional on proper care guidelines. Full details of the warranty and care guidelines are available from www.dominator.co.nz Warranty only applies to doors purchased and installed in New Zealand. Warranty only valid if warranty conditions are met.

b) For areas within one kilometre of a corrosive environment eg. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult your Dominator Accredited Dealer for advice.

c) The process of forming sheet steel may cause irregularities in flat surfaces. Dominator prides itself on producing quality products and makes every effort to limit this visual effect where possible.

d) The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.

e) While New Zealand Steel Limited is our preferred supplier, steel products from other sources may also be used.

f) Details correct at date of publication.

As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually. Dominator® is a brand of B&D Doors (NZ) Ltd. Ph. +64 3 384 5145
